MEMEX

The MEMEX project promotes social cohesion through a smartphone application that links cultural heritage and people's stories.
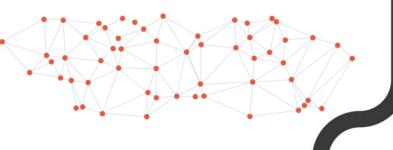

2019-2022

Barcelona

Lisbon

Paris

Using Artificial Intelligence as assistive technology.

Developing new technologies to facilitate the increase collaboration and inclusion of communities.

Allow the communities to tell their stories and to claim their rights and equal participation in the European society.

MEMEX deploys three pilots:

Barcelona's migrant women and the gender perspective

Enhanced readings of shared Portuguese heritage through emancipated eyes

District XIX: Digital storytelling with inhabitants in priority neighbourhood of Paris
